Somali Advice registered in 2002 and the development centre has helped give young people a chance to do more, and be more.

If you need advice you are welcome to attend our surgery. It's run three times a week by staff who will be happy to help. We can help you find your way around housing benefit and council tax.

We can help with application forms, whether you're applying for a job, need to renew your passport, or need help with benefits.

They can offer advice on income support, jobseeker's allowance, universal credit, working tax credit, disability living allowance or personal independence payments.

We can also give non-financial help with gas and electric bills.
